

Reach New Heights with the Elevate Series Joystick

Sure Grip's Elevate Series Joystick sets the standard for electronic controls for scissor lifts, MEWP equipment and other single-axis applications. This innovative, patent-pending joystick provides great feel, excellent sealing and mounting compatibility with virtually all other single axis joysticks.

Maximum Operator Efficiency

With fade-free performance enabled by contactless Hall sensor technology, the Elevate Series provides excellent resolution of $\pm 30^\circ$ travel. This extremely intuitive joystick reduces the need for extensive training and can be used by operators of all skill levels.

Rugged, Long-Lasting Performance

Built to last, the fully sealed and impact-resistant Elevate Series joystick is certified to IP69K and 100 V/m EMC immunity. Rated for -40°C (-40°F) to 85°C (185°F) operation, it is designed to withstand the most extreme conditions for up to 5 million cycles (20 million operations), making the Elevate Series Joystick a top-of-the-line choice for harsh and challenging environments.

Want to put the Elevate Series Joystick to the test?

Sure Grip delivers on your production needs with the fastest lead times in the industry. **Contact us today to see why there's nothing we can't handle!**

Maximum Compatibility

The Elevate Series Joystick features minimum below the panel depth requirements and flexible mounting options. It can be used in new equipment and provides backward compatibility with most existing MEWP equipment.

Take Control with the Elevate Series Joystick

Fully sealed rocker provides simple, intuitive steering control

Robust 100 V/m EMC immunity ensures reliable operation

Dependable operation, tested to over five million cycles and can withstand temperatures ranging from -40°C (-40°F) to +85°C (185°F)

Available for both 5V and 12-24V input voltages, the Elevate Series provides flexible design integration for both gas and electrified machines

Single-axis design with an ergonomic feel provides easy and precise control

Fade-free performance enabled by contactless Hall sensor technology for smooth joystick operation

IP69K sealing ensures protection against dust, water, and other harsh environmental factors, making it ideal for use in rugged conditions

Multiple mounting configurations and minimum below panel depth for backwards compatibility with most existing MEWP controls

Sure Grip Controls is an ISO certified company specializing in custom control solutions for vehicles and equipment in agriculture, construction, forestry, transportation and industrial applications. Our joysticks, miniature thumb controls, and control electronics are meticulously designed, engineered, manufactured and quality-tested to meet manufacturer's specifications while delivering long-lasting, reliable performance. We work closely with hundreds of original equipment manufacturers around the world to develop innovative solutions to their challenges. Whether it's a few joysticks or thousands, our engineering, manufacturing and fulfillment teams are ready to produce your project. Our flexible manufacturing and distribution systems are designed to meet the needs of our global customers.
