

Custom Armrests for Industrial Applications

Sure Grip Controls sets the standard for durability and reliability with our fully customizable, plug and play armrests for mobile applications. The rugged and weather-resistant construction of the armrest ensures a long-lasting solution for electronic control and is built to withstand the seasonal demands faced by mobile equipment.

Optimal Configurability

Developed to support many different components, including paddles, 1, 2 or 3 axis joysticks, LEDs, push buttons, rockers, E-stops and throttles, these armrests are highly configurable and can be tailored to meet your customer's exact needs. Logos, colors, cushion materials and more are also customizable.

Comfort on the Job

Sure Grip's ergonomic armrests are comfortable making them ideal for long term use. Available in left- or right-hand operation, they are optimally designed for one hand, fingertip control. They feature compatible mounting with adjustable height and side/side/forward/back on the seat or cab floor.

Want to put our armrests to the test?

Sure Grip delivers on your production needs with a reliable supply chain and the fastest lead times in the industry. We can help you optimize your mobile equipment with custom joysticks, hydraulics components and more.

Long-Lasting Performance

Made with high-quality materials and expert craftsmanship, our custom armrests are built to last, providing reliable performance for years to come. The armrest's durable and reliable construction is ideal for harsh environments, including snow and ice.

Take Control with our Custom Armrests

Sure Grip Controls is an ISO certified company specializing in custom control solutions for vehicles and equipment in agriculture, construction, forestry, transportation and industrial applications. Our joysticks, miniature thumb controls, and control electronics are meticulously designed, engineered, manufactured and quality-tested to meet manufacturer's specifications while delivering long-lasting, reliable performance. We work closely with hundreds of original equipment manufacturers around the world to develop innovative solutions to their challenges. Whether it's a few joysticks or thousands, our engineering, manufacturing and fulfillment teams are ready to produce your project. Our flexible manufacturing and distribution systems are designed to meet the needs of our global customers.
